It is expressly understood that the County Commissioners' Court does not purpose hereby, to grant any right, claim, title or easement in or upon this county road. It is further understood that in the future should for any reason the county need to work, improve, relocate, widen, increase, add to, or in any manner change the structure of this right-of-way, any required relocation of said lines shall be at the sole expense of owner.

All work on the county right-of-way shall be performed in accordance with the county instructions. SPECIAL SPECIFICATIONS FOR PIPELINES CROSSING IN BORED HOLES AND PLACED PARALLEL TO COUNTY ROADS

GENERAL NOTE: The construction of this project shall follow "The Panola County Road and Bridge Department Standard Specifications" with respect to barricades, flagmen, flares, warning signs, and all responsibility for complaints or damage suits by traveling public and adjacent property owners.

1. Exaction material shall not be placed on road shoulders or traffic lanes or in ditches where drainage would be impaired. 2. All excavations shall be backfilled in a neat and workmanlike manner and all disturbed areas shall be restored to a condition comparable to the original condition. Backfill material shall be consolidated to a density comparable to that of the adjacent undisturbed material, replacing all of the excavated material except that displaced by pipe. Pipe laying operation shall not be carried on when soil conditions are such that construction equipment will cause rutting. Backfill operations shall be kept within one mile of trenching and/or pipe laying operations.
3. Sod and/or other erosion control measures removed or disturbed by the installation shall be replaced. This shall include keeping separate and replacing existing topsoil, importing sod or seeding or a combination of these methods together with fertilizer and water as necessary to re-establish vegetative cover in a healthy and growing condition.
4. The pipe or, if encased, the encasement pipe shall completely fit the bored hole.
5. All private and commercial access driveways disturbed by pipe laying shall be restored to a condition comparable to that which existed prior to these operations. Special care shall be taken to compact backfill and base material to prevent future settlement. All work shall be complete to the owner's satisfaction. All public access driveways with paved surfaces shall be crossed by the bored hole method. Crossings of dirt or gravel public access driveways may be made as specified for private and commercial access driveways except that provisions shall be made for uninterrupted flow of traffic.

6. No trees or shrubbery shall be cut or trimmed without the approval of the Panola County Road and Bridge Department.

Prime Rate Definition

The U.S. Prime Rate is a commonly used, short-term interest rate in the banking system of the United States. All types of American lending institutions (traditional banks, credit unions, thrifts, etc.) use the U.S. Prime Rate as an index or foundation rate for pricing various short- and medium-term loan products. The Prime Rate is consistent because banks want to offer businesses and consumers loan products that are both profitable and competitive. A consistent U.S. Prime Rate also makes it easier and more efficient for individuals and businesses to compare similar loan products offered by competing banks.

Best Credit
Cards Of
2018

Each U.S. state does not have its own individual Prime Rate, so the "New York Prime Rate" or the "California Prime Rate" are in fact the same as the United States Prime Rate.

Mortgage
Rates Today

Providers of consumer and commercial loan products often use the U.S. Prime Interest Rate as their base lending rate, then add a margin (profit) based primarily on the amount of risk associated with a loan. Moreover, some financial institutions use Prime as an index for pricing certain time-deposit products like variable-rate Certificates of Deposit.

It's important to note that the Prime Rate is an index, not a law. Consumers and business owners can sometimes find a loan or credit card with an interest rate that is below the current Prime Lending Rate. Lenders will sometimes offer below-Prime-Rate loans to highly qualified customers as a way of generating business. Furthermore, below-Prime-Rate loans are relatively common when the loan product in question is secured, as is the case with mortgages, home equity loans, home equity lines of credit and car loans.

Every U.S. bank sets its own Prime Rate. However, the Prime Rate is invariably tied to America's cardinal, benchmark interest rate: the **Federal Funds Target Rate** (or Fed Funds Target Rate [FFTR].) The FFTR is set by a committee within the Federal Reserve system called The Federal Open Market Committee (FOMC). The FOMC usually meets every six weeks, and it is at these meetings that the FOMC votes on whether or not to make changes to the FFTR. When the FFTR changes, the United States (Fed) Prime Rate will also change. If the FOMC votes to make no changes to the FFTR, then the U.S. Prime Rate will also remain unchanged.

Since the second quarter of 1994, a rule of thumb for the U.S. Prime Rate has been:

$$\text{U.S. Prime Rate} = (\text{The Fed Funds Target Rate} + 3)$$

The FOMC's primary objectives are to keep inflation under control and maintain steady economic growth with maximum sustainable employment within the United States.

The U.S. Prime Interest Rate is used by many banks to set rates on many consumer loan products, such as student loans, home equity lines of credit, car loans and credit cards. If you read or hear about a change to the U.S. Prime Rate, then any loan product that is tied to the Prime Rate will also change, like variable-rate credit cards or certain adjustable-rate mortgages.

AGREED FINAL JUDGMENT

Plaintiff, USAC Leasing, LLC, and Defendant, Panola County Appraisal District, by and through their attorneys of record, file this Agreed Final Judgment reflecting their settlement regarding the properties that are the subject of this suit. The Parties present this proposed Agreed Final Judgment to the Court for its approval and entry.

The Texas Supreme Court recently rendered judgment in Case No. 15-0683, *EXLP Leasing, LLC v. Galveston Central Appraisal District*, upholding the constitutionality of Texas Tax Code §§ 23.1241-1242 and holding that the sections “fix the situs of dealer-held heavy equipment at the location where the dealer maintains its inventory, rather than at the various locations where the equipment might otherwise be physically located.”

The Parties agree, and the Court finds, that this suit pertains to Plaintiff’s natural gas compressors, which qualify as Plaintiff’s heavy equipment inventory under Texas Tax Code §§ 23.1241-1242 but were included in the Panola County appraisal rolls for the 2012 tax year.

Plaintiff’s Original Petition contains a nonexclusive list of natural gas compressors that qualify as heavy equipment inventory but were included in the Panola County appraisal rolls. For convenience, these are also attached as “Exhibit A.”

The Parties agree, and the Court finds, that the taxable situs for Plaintiff's natural gas compressors for tax year 2012 was not in Panola County, Texas, and thus the compressors should not have been included in the appraisal rolls.

The Court, having reviewed the pleadings on file herein and having reviewed the terms of the settlement is of the belief that it should be in all ways approved. Therefore, IT IS ORDERED, ADJUDGED AND DECREED THAT:

1. The Panola County Appraisal District shall correct the 2012 appraisal rolls by removing all natural gas compressors attributed to Plaintiff.
2. The Panola County Appraisal District shall certify said corrections to the affected taxing units in conformity with the post-appeal procedures provided by Chapter 42, Texas Property Tax Code.
3. It is further ordered that, pursuant to Texas Tax Code § 42.43(b), "the taxing unit shall include with the refund interest on the amount refunded" per the following statutory formula:

| Refunds for tax years 2016-2017 | Refunds for tax years 2012-2015 |
|--|---|
| "an annual rate of 9.5 percent, calculated from the delinquency date for the taxes until the date the refund is made." Tex. Tax Code § 42.43(b) (2015). | "the sum of two percent and the most recent prime rate quoted and published by the Federal Reserve as of the first day of the month in which the refund is made, but not more than a total of eight percent, calculated from the delinquency date for the taxes until the date the refund is made." Tex. Tax Code § 42.43(b) (2011). |

4. It is further ordered that if the terms of this Agreed Final Judgment result in a refund of taxes for the year or years in question, then such refund or refunds, and any applicable interest, shall be sent by first class mail to the person and at the address stated below:

Chris Porter
USA Compression Partners
100 Congress Avenue, Suite 450
Austin, TX 78701

5. It is further ordered that in the event of a conflict between the above order and a form filed by the owner of the property pursuant to Tax Code § 42.43(g), the above order shall prevail.

6. All costs of Court are taxed against the party incurring same; and

7. All relief not expressly granted herein is hereby DENIED.
