Reduced Impact Service (RIS) Agreement

By signing this contract the customer authorizes Paladin Pest Management to perform Reduced Impact Pest Control at the address shown. The customer also acknowledges receipt of the RIS Consumer Information Sheet and understands that the services will be conducted in accordance with the procedures in that document.

The following pesticides may not be used on this property:

Additional Remarks:

The customer agrees to cooperate with Paladin Pest Management's recommendations for sanitary, environmental, and mechanical remedies for pest reduction or prevention. Termites and carpenter ants are not covered by this contract unless otherwise indicated. Service Warranty 30-90 days depending on type of service and/or target pests covered. Service warranty guarantees if additional service is required it shall be performed at no charge to customer. A one year warranty applies for annual agreements and initial termite treatment. Additional years of warranty shall cost 20% of initial charge and are renewable from 5 to 12 years. Should termites reoccur during any warranty period Paladin Pest Management shall spot treat those areas of infestation only, and will not be liable for any existing termite damage or during any additional warranty period.

Customer Does Does Not Accept the Following:

This agreement shall be for an initial period of one year, and will renew itself annually unless either party cancels this agreement by giving thirty (30) days written notice before any expiration date.

Customer: [Signature] Date: 4-22-19 Expiration Date:
Company Representative: [Signature] Date: 4-22-19

CONSUMER INFORMATION SHEET

The structural pest control industry is regulated by the Texas Department of Agriculture (TDA), Structural Pest Control

Service (SPCS), PO Box 12847, Austin, Texas 78711-2847. TDA licenses the businesses, certified applicators and technicians who perform structural pest control work. Certified applicators and technicians must pass a written examination in order to receive their licenses.

Pesticides must be registered with the United States Environmental Protection Agency (EPA) and TDA before they may be used in Texas. EPA registration is not a finding of product safety. Pesticides are designed to kill or control pests.

Your risk of harm depends upon the degree of your exposure and or your individual susceptibility.

Specific health and safety information varies between pesticides and types of exposures and is available on the label information or MSDS sheet, which can be supplied to you upon request from the licensed applicator. Take precautions when a treatment has been performed to avoid exposure to vulnerable individuals. Pesticides may be harmful if swallowed, inhaled, or absorbed through the skin. Avoid breathing dust or spray mist and any unnecessary contact with treated surfaces. If you desire specific information on precautions, refer to the pesticide label. The law requires that the application procedures specified on the label be followed.

If you have questions about the application, contact the business or person making the application. If you suspect a violation of the law regarding structural pest control, contact the SPCS. In case of a health emergency, seek immediate medical attention.

Pest Control signs must be posted prior to treatment in many instances. The signs should be posted in an area of common access at least 48 hours prior to treatment. The information sign will allow you to contact someone who can tell you what pesticide is being used.

If you are contracting for pest control services due to a home solicitation, you have the right to cancel the contract within 72 hours. You may exercise this right by notifying the pest control company that you do not wish to receive their service.

For general information on pesticides, contact the National Pesticide Information Center at 1-800-858-7378.

For information concerning structural pest control laws, contact the Structural Pest Control Service at (512) 305-8250 or 866-918-4481.

For information concerning the formulation and registration of pesticides, contact the TDA pesticide registration at (512) 463-7476 or 800-835-5832.

For non-emergency health information relating to pesticides, contact the Texas Department of State Health Services at (512) 458-7111.

REDUCED IMPACT SERVICE

In order to minimize the reliance on pesticides and reduce pest populations, a Reduced Impact Pest Control operator may recommend that you consider the sanitation or physical alteration of your work place or residence. It is your responsibility to follow those recommendations. Your pest control operator may or may not offer these services upon request. A proper inspection will provide the information necessary for you to choose the method of pest control which best suits your situation. Many pest problems can be solved without using pesticides.

This Reduced Impact Service will include an inspection report and treatment recommendations. You should review these and keep a copy for your records. Your cooperation in following the recommendations made by your service provider is essential to a reduced impact service program.

Pesticides may be used in a responsible and professional manner in a reduced impact pest control service. If you do not want a specific pesticide used or any pesticides used at all, you must note this in writing on the contract prior to the initiation of the service. If any specific pesticide or class of pesticides are not excluded, it may be used by the provider.

REQUIRED BY THE TDA STRUCTURAL PEST CONTROL SERVICE
