NOTES TO THE SALARY SCHEDULE

Any positions which reflect hourly rates and salaries in excess of General Fund budgeted amounts are funded partially or entirely from special revenues available by state or federal law for particular offices. This includes employees in the District Attorney, Sheriff, Tax Assessor/Collector, and the Bailiff & Security Officer.

The District Attorney's Office has State Funds, Forfeiture Funds & Hot Check Fee Funds which can be used for the official statutory purposes of the office.

The Sheriff's office has forfeiture funds which can be used for the official statutory purposes of the office.

The District Attorney's & Sheriff's Office State Forfeiture Funds can be budgeted by the District Attorney & Sheriff with only certain salary increases requiring approval by the Commissioners Court in accordance with applicable statutes.

Any salary increases paid out of the State Forfeiture Funds are considered to be approved by the Commissioners Court by approval of this salary schedule.

At the discretion of the Tax Assessor/Collector the interest off of Vehicle Inventory Taxes may be used to supplement employee's salaries who administer the pre-payment of vehicle inventory taxes.

Courthouse Security funds are used to partially fund the Bailiff and Security Officer.

Any persons during the year filling vacated positions denoted with uniform, clothing allowances, or holiday pay shall automatically receive the same allowances unless otherwise changed by the Commissioners Court or the department head.

Some of the hourly rates and salaries reflect amounts which are below the budgeted amounts. As a part of this salary schedule approval, it is understood that most elected official or department heads can raise the salary levels to the total maximum budgeted amount for that line item. This can be done by submitting a request to Commissioners Court to record the increase in the minutes of the Court. Any increases for Road & Bridge employees require Commissioners' Court approval. No Salaries from the General Fund, Federal Forfeiture Fund, Courthouse Security Fund, Road & Bridge Fund and/or FM & Lateral Fund can exceed the original budgeted salary or wages line unless the Commissioners Court grants such increase by budget amendment. As described earlier, some special revenue funds are available for additional salaries and wages in accordance with State and Federal statutes.

**NOTICE OF PROPOSED INSTALLATION
PIPELINE AND/OR UTILITY LINES**

TO: THE PANOLA COUNTY COMMISSIONER'S COURT

c/o

PANOLA COUNTY ROAD & BRIDGE DEPARTMENT, CARTHAGE, TEXAS

Formal notice is hereby given that:

Valor Telecommunications of Texas, LLC proposes to place a
(COMPANY NAME)

25 pr copper cable line within the Right-of-Way
(PIPE SIZE)

of County Road: 127 as follows:
(NUMBER OF ROAD)

The proposed pipeline will cross under the indicated roads on the attached sheet.
Installation shall be made by boring a total length of 60' line in Panola County.

The location and description of the proposed line and appurtenances is more fully shown by the copies of the drawings attached to this notice. The line will be constructed and maintained on the County Right-of-Way as directed by the County Commissioners in accordance with current Panola County Specifications.

Construction of this line will begin on or after the 26th day of
December, 2019.

Little Rock, AR 72212

RE: **CR #127**

The Panola County Commissioners' Court offers no objection to the location on the right-of-way of your proposed **25 pr copper cable line** within the right-of-way of County Road **#127** as shown by accompanying drawings and notice except as noted below.

It is expressly understood that the County Commissioners' Court does not purpose hereby, to grant any right, claim, title or easement in or upon this county road. It is further understood that in the future should for any reason the county need to work, improve, relocate, widen, increase, add to, or in any manner change the structure of this right-of-way, any required relocation of said lines shall be at the sole expense of owner.

All work on the county right-of-way shall be performed in accordance with the county instructions. The installations shall not damage any part of the road and adequate provisions must be made to cause minimum inconvenience to traffic and adjacent owners. Special specifications for placing this line are as follows:

1. All lines are to be installed a minimum of 36 inches below the flow line of the adjacent drainage or barrow ditch.
2. All excavation within the right-of-way and not under surfacing shall be backfilled by tamping in 6 inch horizontal layers. All surplus material shall be removed from the right-of-way and the excavation finished flush with surrounding natural ground.
3. Lines crossing under surfaced roads and under surfacing cross roads within the right-of-way shall be placed by boring. Boring shall extend from crown line to crown line. Gravity from sewer lines under roadways shall be cast iron pipe.
4. All lines, where practicable, shall be located to cross roadbed at approximately right angles thereto. No lines are to be installed under or within 50 feet of either end of any bridge. No lines shall be placed in any culvert or within 10 feet of the closest point of same.

5. Parallel line will be installed as near the right-of-way lines as is possible and no parallel line will be installed in the roadbed or between the drainage ditch and the roadbed without special permission of the Panola County Commissioners' Court.
6. Operations along roadbeds shall be performed in such manner that all excavated material be kept off the pavement at all times, as well as all operating equipment and materials. No equipment or installation procedures will be used which will damage any road surface or structures. The cost of any repairs to road surface, roadbed, structures or other right-of-way features as a direct result of this installation will be borne by the owner of this line.
7. Barricades, warning signs, lights, and flag man(men) when necessary shall be provided by the contractor or owner. One-half (1/2) of the traveled portion of the road must be open at all times.

Approved:  _____
COUNTY JUDGE

COMMISSIONERS:

Precinct #1	Ronnie LaGrone
Precinct #2	David A. Cole
Precinct #3	Craig M. Lawless
Precinct #4	Dale LaGrone

**SPECIAL SPECIFICATIONS
FOR PIPELINES CROSSING IN BORED HOLES
AND PLACED PARALLEL TO COUNTY ROADS**

GENERAL NOTE: The construction of this project shall follow "The Panola County Road and Bridge Department Standard Specifications" with respect to barricades, flagmen, flares, warning signs, and all responsibility for complaints or damage suits by traveling public and adjacent property owners.

1. Exaction material shall not be placed on road shoulders or traffic lanes or in ditches where drainage would be impaired. When excavation is permitted near the roadway, where, in the opinion of the County, the support of the oil road structure is endangered, sheeting, cribbing, other measures shall be taken to prevent damage to the roadway or the creation of traffic hazard.
2. All excavations shall be backfilled in a neat and workmanlike manner and all disturbed areas shall be restored to a condition comparable to the original condition. Backfill material shall be consolidated to a density comparable to that of the adjacent undisturbed material, replacing all of the excavated material except that displaced by pipe. The degree of compaction shall be such as to prevent future settlement. Excess material displaced by the pipe shall be removed from the right-of-way or otherwise disposed of to the satisfaction of the county's representative. Pipe laying operation shall not be carried on when soil conditions are such that construction equipment will cause rutting. Backfill operations shall be kept within one mile of trenching and/or pipe laying operations.
3. Sod and/or other erosion control measures removed or disturbed by the installation shall be replaced. This shall include keeping separate and replacing existing topsoil, importing sod or seeding or a combination of these methods together with fertilizer and water as necessary to re-establish vegetative cover in a healthy and growing condition.
4. The pipe or, if encased, the encasement pipe shall completely fit the bored hole and if not encased, the pipe should be a thicker wall within the bore; and shall be a minimum depth of 2 to 3 feet from the bottom of the ditch; and 3 to 4 feet underneath the roadway.
5. All private and commercial access driveways disturbed by pipe laying shall be restored to a condition comparable to that which existed prior to these operations. Special care shall be taken to compact backfill and base material to prevent future settlement. All work shall be complete to the owner's satisfaction. All public access driveways with paved surfaces shall be crossed by the bored hole method. Crossings of dirt or gravel public access driveways may be made as specified for private and commercial access driveways except that provisions shall be made for uninterrupted flow of traffic.
6. No trees or shrubbery shall be cut or trimmed without the approval of the Panola County Road and Bridge Department.

7. Regulations and ordinances of incorporated cities shall be compiled with, if within the City limits.

Commissioners:

Precinct #1 – Ronnie LaGrone

Precinct #2 – David A. Cole

Precinct #3 – Craig M. Lawless

Precinct #4 – Dale LaGrone

- GENERAL NOTES**
- Flugs attached to signs where shown are REQUIRED.
 - All traffic control devices illustrated are REQUIRED, except those indicated by the triangle symbol may be omitted when stated elsewhere in the plan, or for routine maintenance work, when approved by the Engineer.
 - Inactive work vehicles or other equipment should be parked near the right-of-way line and not parked on the paved shoulder.
 - A Shadow Vehicle with a TMA should be used anytime it can be positioned affecting the performance of the work zone. It should be used to remain in place, Type 3 Barricades or other channelizing devices may be substituted for the Shadow Vehicle and TMA.
 - Additional Shadow Vehicles with TMA may be positioned off the paved shoulder next to those shown in order to protect wider work spaces.
 - Channelizing devices for shoulder work on divided highways, expressways and freeways.
 - CP-1-5 "SHOULDER WORK" signs may be used in place of CP-1-10 "ROAD WORK AHEAD" signs for shoulder work on conventional roadways.

GENERAL NOTES

1. Flare, orange-red to sign where shown are REQUIRED.
 2. All other traffic signs, traffic cones, and cones REQUIRED, except those specified with the triangle symbol may be omitted when stated elsewhere in the plans, or for routine maintenance work, when approved by the Engineer.
 3. The C-3-4 "BE PREPARED TO STOP" sign shall be installed after the C-2-0 "ONE LANE ROAD AHEAD" sign, but proper sign spacing shall be maintained.
 4. Sign spacing may be increased or on dual-lane roads, may be as close as 150 feet.
 5. A "ROAD NARROWED AHEAD" sign shall be installed 150 feet from the start of the work.
 6. A shadow vehicle with a 10 ft. should be used. Any time it can be positioned 30 to 100 feet, in advance of the area of crew exposure without adversely affecting the performance or quality of the work. If workers are no longer present but road or work conditions require the traffic control to remain in place, Type 3 barricades or other channelizing devices may be used. (Refer to the State Vehicle and Traffic Code.)
 7. The "ROAD NARROWED AHEAD" sign shall be removed off the paved surface, rest to those shown in order to protect wider work areas.
- TCP (1-20)**
7. R1-2 "YIELD" sign traffic control may be used on projects with approaches that have adequate sight distances. For projects in urban areas, work spaces with no larger than 400 feet should be used. For projects in rural areas, work spaces should be no larger than 400 feet.
 8. R1-2 "YIELD" sign with R1-2p "TO OBLONGING TRAFFIC" plaque shall be placed on a support of a 7 foot minimum mounting height.

TCP (1-2b)

3. Flaggers should use two-way radios or other means of communication to control traffic.
4. Location of work zones should be based on the ability of flaggers to communicate with each other.
5. If the work zones is located near a horizontal or vertical curve, the buffer distances should be increased in order to maintain adequate stopping sight distance to the flagger and a queue of stopped vehicles (see table above).
6. Canalizing devices on the center-line may be omitted when a pilot car is leading traffic and approved by the Engineer.
7. Flaggers should use two-way radios to communicate with each other.
8. Flaggers should use two-way radios to control traffic. Flags should be placed in the center-line of the road.

- GENERAL NOTES**
- Flags attached to signs where shown, are REQUIRED.
 - All traffic control devices illustrated are REQUIRED, except those indicated otherwise. The devices shown are to be placed elsewhere in the plans, or for routine maintenance work, when approved by the Engineer.
 - Channelizing devices used to close lanes may be supplemented with the Chevron Alignment Sign placed on every other channelizing device. Chevron signs are not required on closed lanes on bridges.
 - Channelizing devices may be supplemented with flashing lights, oscillating or strobe lights. A shadow vehicle with a TMA should be used anytime it can be positioned 30 to 100 feet in advance of the area of crew exposure without adversely affecting the performance or quality of the work. If workers are no longer present but road or bridge closure is required, the shadow vehicle should be substituted for the shadow vehicle and TMA.
 - Additional Snow Vehicles with TMA may be positioned in each closed lane, on the shoulder or off the paved surface, next to those shown in order to protect a wider work space.

RE: **CR #3151**

The Panola County Commissioners' Court offers no objection to the location on the right-of-way of your proposed **Bore & install Duct & Fiber line** within the right-of-way of County Road **#3151** as shown by accompanying drawings and notice except as noted below.

It is expressly understood that the County Commissioners' Court does not purpose hereby, to grant any right, claim, title or easement in or upon this county road. It is further understood that in the future should for any reason the county need to work, improve, relocate, widen, increase, add to, or in any manner change the structure of this right-of-way, any required relocation of said lines shall be at the sole expense of owner.

All work on the county right-of-way shall be performed in accordance with the county instructions. The installations shall not damage any part of the road and adequate provisions must be made to cause minimum inconvenience to traffic and adjacent owners. Special specifications for placing this line are as follows:

1. All lines are to be installed a minimum of 36 inches below the flow line of the adjacent drainage or barrow ditch.
2. All excavation within the right-of-way and not under surfacing shall be backfilled by tamping in 6 inch horizontal layers. All surplus material shall be removed from the right-of-way and the excavation finished flush with surrounding natural ground.
3. Lines crossing under surfaced roads and under surfacing cross roads within the right-of-way shall be placed by boring. Boring shall extend from crown line to crown line. Gravity from sewer lines under roadways shall be cast iron pipe.
4. All lines, where practicable, shall be located to cross roadbed at approximately right angles thereto. No lines are to be installed under or within 50 feet of either end of any bridge. No lines shall be placed in any culvert or within 10 feet of the closest point of same.

5. Parallel line will be installed as near the right-of-way lines as is possible and no parallel line will be installed in the roadbed or between the drainage ditch and the roadbed without special permission of the Panola County Commissioners' Court.
6. Operations along roadbeds shall be performed in such manner that all excavated material be kept off the pavement at all times, as well as all operating equipment and materials. No equipment or installation procedures will be used which will damage any road surface or structures. The cost of any repairs to road surface, roadbed, structures or other right-of-way features as a direct result of this installation will be borne by the owner of this line.
7. Barricades, warning signs, lights, and flag man(men) when necessary shall be provided by the contractor or owner. One-half (1/2) of the traveled portion of the road must be open at all times.

PANOLA COUNTY
2020
BUDGET AMENDMENT #1

We hereby amend the Panola County Budget for the Fiscal Year 2020 as set forth above according to the procedures outlined under Local Government Code, Chapter 111, Subchapter A Sections 111.010 (c), (d). A copy of this Order is to be filed with the County Clerk and Attached to the Budget originally adopted for 2019.

Signed on this 31st day of December, 2019.

County Judge

Commissioner Precinct # 1

Commissioner Precinct # 2

Commissioner Precinct # 3

Commissioner Precinct # 4

Passed and approved by the Commissioners Court of Panola County on the 31st day of December, 2019 as the same appears on file in the office of the County

Clerk of Panola County

County Clerk

December 31, 2019
