

Dear County Commissioner's Court:

You can have the greatest business that provides the best products and services, however, with visibility no one will know it exists. Visible Signage will keep Panola County AgriLife Extension "top of the mind for potential and existing clientele" additionally, good sign placement is a great marketing tool that reinforces brand awareness and power.

For these reasons, Panola County AgriLife Extension requests approval from the Commissioner's Court of Panola County to locate the bulletin board in the main hallway of the ground floor within the courthouse itself. Preferably we would like this board to be located close to our new offices. Currently there is an existing board directly across the hall from our office and if this board is available, we could make great use of it. If not, then we would like to request permission to utilize \$185.99 from our furniture line within our budget to purchase a new 4 x 8 Cork Bulletin Board through Quill.

Thank you,

Lee Dudley, AG-NR

Panola County Extension Agent
