Shipping and handling is an estimate.

Our proposals include an estimate of applicable itemized sales taxes which Big Ass Fans is legally obligated to collect and remit. The final, actual amount of such taxes would only be known at the time the customer is actually invoiced for the order.

All products are subject to Big Ass Fans return policy. For full details visit bigassfans.com/returns

The Buyer must insure that product specifications are consistent with actual field installation requirements. Big Ass Fans product recommendations are based on product specifications as transmitted to the company. As such, Big Ass Fans is not responsible for inaccuracies between the communicated product specifications and actual field installation requirements. The Buyer of the specified products assumes responsibility for the cost of returning or exchanging specified product where specified product does not meet field requirements.

Any variations to product types or quantities (or omissions of existing light fixtures during the survey process – and now not represented in project) will be considered “add-on” and an additional material requirement. These add-on materials will be priced separately.

Big Ass Fans customers who have been approved for term credit and are invoiced for their orders may pay their invoice through one of our customary term credit payment methods of: Check, money order, wire transfer or ACH payment. Any such term credit approved customers who subsequently elect to pay their term invoice by credit card will also be charged a convenience fee for doing so. The exact amount of the convenience fee will be communicated to the customer before the transaction is processed and the card is charged. The Fee is calculated by multiplying the amount sought to be charged to the credit card by .03. (Fee = .03 x Total Amount Paid). If the customer elects not to pay the convenience fee, the customer may use one of the other payment channels alluded to above, free of charge.

Customer is responsible for paying all applicable state and local transactional taxes resulting from the sale. As a manufacturer of tangible personal property registered to do business in all 50 US States, Big Ass Fans is obligated to collect and remit applicable sales taxes and the transaction will be treated and reported as the sale of tangible personal property sold by a manufacturer.

To the extent that the Buyer takes any contrary position with any taxing authority subsequent to this transaction which results in additional and/or different transaction-based taxes for which Big Ass Fans is responsible, Big Ass Fans reserves the right to apply any sales tax collected to any such additional taxes due and/or invoice the Buyer for any other additional amounts due. Additionally, to the extent that applicable transactional taxes were not collected at the time of sale in reliance upon an Exemption Certificate or other exemption later found to be inapplicable by Big Ass Fans, in the exercise of its sole and absolute discretion, Big Ass Fans will invoice Buyer for any applicable sales or other transactional taxes.

Buyer covenants and agrees to promptly pay any such amounts to Big Ass Fans on the same terms and conditions as any other amounts owed to Big Ass Fans on the applicable Order.

The transaction and contract that is the subject of this Proposal shall be governed by the internal laws of the Commonwealth of Kentucky. Any controversy or claim arising out of or relating to this contract, or the breach thereof, shall be settled by arbitration administered by the American Arbitration Association in accordance with its Commercial Arbitration Rules, and judgment on the award rendered by the arbitrator(s) may be entered in any court having jurisdiction thereof.

This Proposal and its Associated Terms may not be modified or added to, except by a subsequent writing executed by Big Ass Fans.

STANDARD PAYMENT TERMS – CASH IN ADVANCE

Standard Payment terms are set at 100% Cash in Advance. We accept payment by credit card, wire transfer, or check. We will need to receive payment for your order prior to shipment.

FREIGHT CHARGES

International freight is not included in this quote unless defined in the 'FREIGHT INFORMATION' portion of this proposal. Freight charges and transit times are strictly estimates and are subject to change at the time of purchase. They are estimated based upon the freight carrier, method of freight, and Incoterm to the port or place of destination as stated above in the 'FREIGHT INFORMATION' portion of this proposal. This quote excludes taxes, duties, customs charges, and other import fees.

EXPORT CONTROL STATEMENT

This quote was created with the knowledge that these products are going to be exported outside the United States. By signing this quote or submitting a purchase order, you agree to the following: These commodities, technology, or software were exported from the United States in accordance with the Export Administration Regulations. Diversion contrary to U.S. law is prohibited.

EEL FILING, EXPORT LICENSING, AND ROUTED EXPORT TRANSACTIONS

United States Law requires reporting qualifying export transactions into the Automated Export System ("AES") prior to shipment. The U.S. Principal Party in Interest ("USPPI") is responsible for filing the Electronic Export Information ("EEL") and maintaining a record of all documentation. For purposes of filing the EEL, the USPPI is the person or legal entity in the United States that receives the primary benefit, monetary or otherwise, from the transaction. In the cases where Big Ass Fans is the USPPI, Big Ass Fans will be responsible for filing the EEL, except in the cases of Routed Export Transactions, as defined below.

EEI AUTHORIZATION ON ROUTED TRANSACTIONS CONT.

Big Ass Fans is NOT the USPPI for those international shipments in which Big Ass Fans is selling to either (1) a U.S. person or party who in turn resells the goods to a foreign buyer or who otherwise receives the primary benefit from the export transaction, or (2) a foreign entity that is in the United States when the items are purchased or obtained for export. In those cases, the U.S. reseller or foreign entity is considered to be the USPPI, and is responsible for the filing of accurate EEI data in the AES system.

A routed export transaction is a transaction in which the Foreign Principal Party in Interest ("FPPI", a.k.a. the foreign buyer or consignee) authorizes a U.S. agent to facilitate the export of items from the United States and to prepare and file the EEI into AES. For those international shipments where Big Ass Fans is the USPPI, Big Ass Fans will consider any international shipment accepted under Incoterms EXW, FCA, FAS or FOB as a Routed Export Transaction. In a Routed Export Transaction, it is the responsibility of the FPPI to ensure that the EEI has been filed and all information is accurate.

When a shipment is considered a Routed Export Transaction, the FPPI, having an office and business address provided in this document, acknowledges the following:

1. You will authorize a U.S. agent to export and file EEI on your behalf. This authorization shall be in the form of a Power of Attorney (POA).
2. You will provide Big Ass Fans with the contact information of your authorized U.S. agent.
3. Your authorized U.S. agent will provide a copy of the POA to Big Ass Fans.
4. Big Ass Fans will provide the required EEI data to your authorized U.S. agent..
5. Your authorized U.S. agent will mark the transaction as a Routed Export Transaction in the AES system.
6. Your authorized U.S. agent will provide a copy of the EEI filing, including the Internal Transaction Number (ITN), to Big Ass Fans within 10 days of cargo departure.

All parties that participate in transactions subject to the Export Administration Regulations ("EAR") must comply with the EAR. The USPPI is the exporter. The exporter must determine licensing authority (License, License Exception, or NLR), and obtain the appropriate export license or other authorization when necessary.

The statements above are intended for informational purposes only. Nothing is to be considered as rendering legal or trade compliance advice for any specific matter. External parties are responsible for obtaining such advice from their own legal counsel, Customs broker, or Trade Compliance expert. Big Ass Fans is not providing legal or trade compliance advice, and, as such, accepts absolutely no responsibility for any loss or claim which may arise from reliance on the information above. Big Ass Fans expressly disclaims, to the fullest extent permitted by applicable law, any and all liability with respect to acts or omissions made by customers, their representatives or their agents on the basis of such information.

PRODUCT SPECIFICATIONS

The Buyer must ensure that product specifications are consistent with actual field installation requirements. Big Ass Fans product recommendations are based on specifications as transmitted to the company. As such, Big Ass Fans is not responsible for inaccuracies between the communicated specifications and actual field installation requirements. The Buyer of the specified products assumes responsibility for the cost of returning or exchanging specified product where specified product does not meet field requirements.

INTELLECTUAL PROPERTY

Big Ass Fans retains exclusive ownership of all intellectual property rights embodied by and/or associated with the products sold.

HOW TO ORDER

ShopFan

Technical Specifications

Lightweight and pre-wired for easy installation, ShopFan by Big Ass Fans® is an impressive and economical fan package for workshops, small manufacturing facilities, and industrial spaces. Easy installation, superb performance and year-round energy savings — just what you'd expect from Big Ass Fans.

EASY INSTALLATION FOR SMALLER SHOPS

- **Convenient Installation** — Lightweight and pre-wired for easier, faster installation; plug and play in any 110–125 V, 20 A receptacle
- **Airfoils** — Six patented aluminum airfoils (mill finish)
- **Winglets** — Cuffed winglets eliminate wind noise (safety yellow)
- **Motor and Gearbox** — Industrial-grade motor and gearbox feature inline helical-cut gears for efficient, durable, and reliable operation; lubricated for life with synthetic oil
- **Hub System** — Machine-cut precision components for uniform load distribution
- **Controller** — NEMA 4X variable speed drive is pre-wired to the motor with a 50 ft (15.2 m) cord and includes a 10 ft (3 m) AC supply power cord
- **Mounting** — Standard mount with 36 in. (914 mm) extension tube install to I-beams and angle iron; optional kits allow for mounting to large I-beams, solid beams, Z-purlins, and pitched roofs
- **Safety Features** — Airfoil retainers, hub retainer clips, safety cables, Grade 8 bolts, fire relay (must be wired if required by local code)
- **Efficiency** — Moves more air than 70 standard ceiling fans at just a fraction of the operating cost

The unique aerodynamic design eliminates vortex formation at the airfoil tips.
