This Statement of Work is an Addendum to the Computer System and Software License Sales Agreement 'LifeCycle Extension' dated September 28, 2021. Except as amended by this addendum, the terms and conditions of that Agreement, which are incorporated herein and made a part hereof, shall continue in full force. All legal verbiage from that agreement and the schedules included within, apply to this Statement of Work.

This add-on service integrates seamlessly with the existing Fidlar Land Records System. The CONDOR: 'DAY-FORWARD' Indexing Services solution works within project parameters to index party names, legal descriptions and other data elements. CONDOR will incorporate this information into your Land Records System.

The County reserves the right to terminate this service at any time, for any reason or no reason at all, by giving Fidlar 10-day prior written notice of termination.

Your 'DAY-FORWARD' Indexing Services solution includes the following services and investment:

- Full Document Indexing for the first 100 documents indexed each month - \$2.70/Document
- Full Document Indexing any additional documents after the first 100 documents each month - \$1.80/Document

These amounts apply for work performed.

Notes

- To allow time for workflow and configurations, Fidlar requires 5 days' notice before the 'first' Condor indexing work commences
- When notified, Fidlar will complete index documents in 'AVID Processing' on behalf of the county
 - Once Processed, these documents will go into an Audit queue for the county staff to verify the indexed information
- Only actual indexed quantities will be invoiced
- Invoices will be sent monthly based on the previous month's completed work

In exchange for products and services outlined in this agreement Panola County Clerk agrees to pay Fidlar Technologies the total amounts due based on the terms and conditions described above.
