Blazer Invoice.pdf;

Could you please add to the agenda for 5/10/22 a request from the library to split the cost of replacing track lighting at Sammy Brown Library? Attached is an invoice from Blazer Electric in the amount of \$16,226.40 for the work that has been completed. The Library Board requests that the County split this expense with the Library, making the reimbursement request \$8,113.20. The replacement of the track lighting system was necessary because the original lighting fixtures were discontinued by the manufacturer. In addition, the library kept experiencing lighting outages with any power source disruption. The old halogen fixtures would fail to come back on immediately and some times even hours after a disruption. The new LED fixtures can turn back on immediately when power is restored.

Unfortunately, I will not be able to attend the meeting due to another library function. If the Judge or Commissioners have any questions, please feel free to contact me beforehand.

Thank You,

Kim Turner  
Director  
Sammy Brown Library  
Carthage, TX
