August 15, 2022 Price Announcement

June 30, 2022

Dear **Valued** Customer,

We would like to thank you for your business and continued support. It is our privilege to be your supplier of choice and we appreciate your loyalty.

Over the last several months our business has absorbed cost increases from fuel, electric power, natural gas, liquid asphalt, aggregates, trucking and rail transportation. We have done everything we can to keep these costs from impacting our customers. However, it has come to the point where we just cannot continue to run our business without passing along these higher costs.

In order to provide our customers with at least a four week notice we will implement a price increase effective August 15, 2022 for each of our locations. Included in this letter are all the new price points for each of our locations and products.

For your budget purposes and as we move forward into 2023, we are anticipating another price increase for the first of the year. We do not know exactly what this price increase will be however, as an estimate we could see a \$5.00 - \$6.00 per ton increase for asphalt and a \$1.50 to \$2.50 per ton increase for base aggregates.

If you have any questions, please contact one of the individuals below:
