Re: Panola County Fairgrounds Retaining Wall and Associated Work

Mr. Earle,

The following is a proposal on the above referenced project. The proposal is based on plans and specs designed by Crafton & Coz Engineering, dated July 16, 2024. Please note these are the revised drawings after the onsite meeting you had with Cagan and Travis.

Clarifications

TIPS 24010402 or 24010401

Included all work per plans except the milling's materials mentioned in the regraded area shown and hydro mulch. See note on plans.

No performance/payment bonding included.

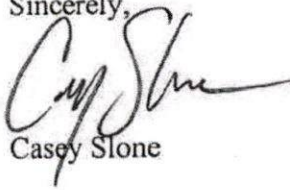

Testing of concrete only included.

*Does not include unsuitable soils if discovered when proof rolling. This would justify a change order to be approved by the owner.

Total Amount of Proposal.....\$107,574.00

Scheduling to be done upon acceptance. If you have any questions, please feel free to call.

Sincerely,

Casey Slone
