February 10<sup>th</sup>, 2025

Dear Bobbie,

Enclosed is a TIPS priced proposal for Steel Fixtures Roller Shelving for your basement. Once installed these shelves would provide 140 openings for your Preserved Books.

There would be a total of 7 Ea. 16 Opening Shelf Units and 7 Ea. 4 Opening Shelf Units on top of the 16. This would give you 140 openings for the large books.

I estimated that you will have approximately 26 openings left after all the smaller books that are two to the page, the rest of the large books on top of the other shelf, and the preserved books being returned are put in.

Since these are heavy, I have figured an installation price from our professional installers. They would meet the truck when they are delivering, make sure the shelves are in good shape, take them to your location in the basement, put them in place and then anchor them to the wall for security.

These Roller Shelves are on our TIPS contract 230105 for your convenience.

The quote now has a 180-day shipping time, but the Factory said they could do 90 days if asked, and I will ask.

Thanks for your business and please let me know!

Sincerely,

A handwritten signature in black ink that reads "Tommy".

Tommy Ellis  
Sales Manager
