

Notice of Public Hearing

On a Plan for the Preservation and Restoration of the County Clerk's Records Archive

Notice is hereby given that a public hearing on a plan for the preservation and restoration of the Panola County Clerk's records archive will be held pursuant to Local Government Code 118.025(g), at a regular meeting of the Panola County Commissioners' Court, in the Commissioners' Courtroom, Panola County Courthouse, 110 South Sycamore, Carthage, Texas, on Tuesday, August 12, 2025 at 9:00 AM.

Dated this 15th day of July 2025.

Rodger McLane
County Judge, Panola County

Attest:

Bobbie Davis
County Clerk, Panola County

Panola County Clerk Records Archive Preservation and Restoration Plan 2026

Purpose

The purpose of this plan is to outline the preservation and restoration of the County Clerk's records archive for the upcoming fiscal year. Our goal is to digitally image all records stored in the County Clerk's office in a standardized, universal format, while simultaneously restoring and preserving the original records. This process will provide access, minimize deterioration of existing records and assist in developing the County Clerk's disaster recovery capabilities. Funding is necessary and legislation has been enacted to provide the collection of fees for this purpose.

The **County Clerk Records Archive Fee**, LGC 118 011(f)(1) and LGC 118 025, provides for "the preservation and restoration services performed by the county clerk in connection with maintaining a county clerk's records archive" and authorizes the collection of up to \$10 per recorded document, with Commissioners' Court approval. The Panola County Clerk's Office currently collects \$10 per recorded document. The funds generated from the collection of the Archive Fee may be expended only for the preservation and restoration of the County Clerk's records archive.

The **County Clerk Records Management and Preservation Fee** provides for "records management and preservation services performed by the county clerk after the filing and recording of a document in the records of the office of the clerk" and authorizes the collection of up to \$10 per recorded (non-court-related) document [LGC 118 011(b)(2) and LGC 118 0216]. The Panola County Clerk's Office currently collects \$10 per recorded document. The funds generated from the collection of this fee may be used for specific records management and preservation, including automation.

Additionally, LGC 134 102(a) provides for the collection of a \$25.00 **County Records Management and Preservation Fee (RMPF)** per conviction in a criminal misdemeanor case filed in the County Clerk's Office, and collection of a \$30.00 **RMPF** for new civil cases [LGC 135 101(b)], and a \$20.00 **RMPF** for subsequent filings in civil cases. New probate and guardianship cases include a \$15.00 **RMPF** [LGC 135 102(b)], and \$5.00 **RMPF** for subsequent filings in probate and guardianship cases. Per LGC 134 155 and 135 154, these fees "may be used by a county only to fund records management and preservation services, including automation, performed by the court clerk on approval by the commissioners court."

In FY 2023 and FY 2024, collection of these fees alone in the County Clerk's office generated approximately \$166,308 and \$129,942, respectively. During the first half of 2025, these fees have generated almost \$66,000.

Designation of Records

Open/Public Records

Panola County real property records range in date from approximately 1850 to present and contain over 2,100 books of recorded documents and indexes. All original land record books and index books have

been microfilmed or scanned and reproduced in book format. With approval and support of Commissioners' Court in recent years, the large majority of land records have now been digitized and are available both locally and online. However, the majority of the original land record books have not been restored/preserved, and as current digitization projects are completed by staff, we would like to begin the restoration/preservation of those books.

Probate, mental health, civil and criminal cases also date from approximately 1850 to present. Probate, civil and criminal case records (with the exception of juvenile criminal cases) are open to the public. With the advent of mandatory e-filing and our determination to be paperless, we are creating very few new paper case files. With the support of Commissioners' Court, we now have preserved the oldest probate case files. County Clerk staff have worked diligently to add all digital probate case files to our case management system. That task is now complete, and enables the public to access those open records electronically. The majority of the Probate and Final Estate Minute Books dating back to sovereignty have been preserved and digitized in recent years are now stored in the County Clerk's Office.

Commissioners' Court Minutes are currently created and recorded electronically, and paper versions have been scanned and indexed back to approximately 1996. The oldest original Commissioners' Court Minute books, dating back to 1846, are in the process of being cleaned and preserved, and once those preserved books are delivered to the County Clerk's Office, the plan is to import the scanned digital records to our Commissioners' Court software, while County Clerk staff continues to enter more recent minutes manually as time allows.

Livestock Marks and Brands record books date to 1882. These books were sent to an outside vendor with the birth, death and marriage record books to be restored and preserved. The project was completed in late 2018, and those books are currently available in our office. Marks and Brands are partially indexed digitally, and Marriage records should be fully indexed and completed by County Clerk staff in the next few years.

There are a number of miscellaneous books that are frequently referenced by staff and/or the public that would benefit from being digitized, so that the original books may be preserved. Our plan is to continue the restoration and conversion of our miscellaneous books in the next few years, as personnel, equipment, time and funds are available.

Closed Records

Birth, death and marriage records date prior to 1900, and military discharge records date to early 20th century. *The original books were the only resource available until recently.* In 2017, Commissioners' Court approved funding to restore, preserve and digitize 72 of our oldest birth, death and marriage books, using funds collected in the form of recording and filing fees assessed by the County Clerk's Office. The preservation and restoration phase of this project was completed in late 2018, and I am pleased to say that County Clerk staff has almost entirely completed indexing of the birth and death records, allowing us to quickly identify and issue records as they are requested by the public. Military Discharge records have been completely digitized by County Clerk staff, and an index provided to the local Veterans Administration Office.

Summary

Significant progress has been made in recent years restoring, preserving and digitizing the records of the County Clerk. It is our desire, and I believe my duty, to preserve the history of Panola County and its citizens in the best way possible, with the most efficient use of fees collected. With continued funding and

support of Commissioners' Court, we will persist until all of the records in our care have been preserved for future generations
