**NOTICE OF PROPOSED INSTALLATION
PIPELINE AND/OR UTILITY LINES**

TO: THE PANOLA COUNTY COMMISSIONER'S COURT

c/o

PANOLA COUNTY ROAD & BRIDGE DEPARTMENT, CARTHAGE, TEXAS

Formal notice is hereby given that:

Socagee Midstream Gas Services, LLC proposes to place a
(COMPANY NAME)

12" line within the Right-of-Way
(PIPE SIZE)

of County Road: 471 as follows:
(NUMBER OF ROAD)

The proposed pipeline will cross under the indicated roads on the attached sheet.
Installation shall be made by boring a total length of 62.6' line in Panola County.

The location and description of the proposed line and appurtenances is more fully shown by the copies of the drawings attached to this notice. The line will be constructed and maintained on the County Right-of-Way as directed by the County Commissioners in accordance with current Panola County Specifications.

Construction of this line will begin on or after the 7th day of
August.

RE: **County Road #471**

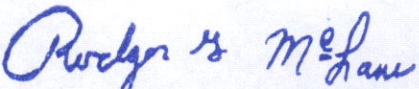

The Panola County Commissioners' Court offers no objection to the location on the right-of-way of your proposed **12" line** within the right-of-way of County Road **#471**.

It is expressly understood that the County Commissioners' Court does not purpose hereby, to grant any right, claim, title or easement in or upon this county road. It is further understood that in the future should for any reason the county need to work, improve, relocate, widen, increase, add to, or in any manner change the structure of this right-of-way, any required relocation of said lines shall be at the sole expense of owner.

All work on the county right-of-way shall be performed in accordance with the county instructions. The installations shall not damage any part of the road and adequate provisions must be made to cause minimum inconvenience to traffic and adjacent owners. Special specifications for placing this line are as follows:

1. All lines are to be installed a minimum of 36 inches below the flow line of the adjacent drainage or barrow ditch.
2. All excavation within the right-of-way and not under surfacing shall be backfilled by tamping in 6 inch horizontal layers. All surplus material shall be removed from the right-of-way and the excavation finished flush with surrounding natural ground.
3. Lines crossing under surfaced roads and under surfacing cross roads within the right-of-way shall be placed by boring. Boring shall extend from crown line to crown line. Gravity from sewer lines under roadways shall be cast iron pipe.
4. All lines, where practicable, shall be located to cross roadbed at approximately right angles thereto. No lines are to be installed under or within 50 feet of either end of any bridge. No lines shall be placed in any culvert or within 10 feet of the closest point of same.

5. Parallel line will be installed as near the right-of-way lines as is possible and no parallel line will be installed in the roadbed or between the drainage ditch and the roadbed without special permission of the Panola County Commissioners' Court.
6. Operations along roadbeds shall be performed in such manner that all excavated material be kept off the pavement at all times, as well as all operating equipment and materials. No equipment or installation procedures will be used which will damage any road surface or structures. The cost of any repairs to road surface, roadbed, structures or other right-of-way features as a direct result of this installation will be borne by the owner of this line.
7. Barricades, warning signs, lights, and flag man(men) when necessary shall be provided by the contractor or owner. One-half (1/2) of the traveled portion of the road must be open at all times.
8. Unless other arrangements are made with the designated Commissioner, no work will be performed on Saturday, Sunday, Holidays or hours other than standard working hours. (Monday - Friday)
9. Operations shall not be carried on when soil conditions are such that construction will cause rutting.
