BISDIGITAL

Terms and Conditions

Effective Period	This Quote (Q-8032054) is valid through **February 20, 2027**
Tax Status	Sales tax will be added to an invoice unless a Tax-Exempt Form is on file with the BIS Digital corporate office.
Payment Terms	**Deposit:** All orders above $5,000 require a 50% deposit. Once the deposit for an order is received by BIS Digital, installation scheduling and shipment of goods will occur. **Balance:** For installations, the remaining balance is to be paid on the completion of the installation. For orders, the remaining balance is to be paid on the delivery of goods at the customer site.
Cancellation	In the event a customer cancels or postpones an order after a deposit has been received, BIS Digital reserves the right to invoice for hardware, software, shipping costs, and any other materials procured for the order. **Restocking Fee:** A 20% restocking fee will be charged for all cancelled orders.
Limited Warranty	New software supplied by BIS Digital are covered for 90 days from the date of installation. New hardware supplied by BIS Digital are covered for 90 days from the date of delivery. Manufacturer Warranties do not cover On-Site Technical Support, Shipping costs, or Software upgrades.
Software Assurance	Annual Software Assurance entitles users to software upgrades at a fixed fee assessed at time of purchase.
Substitutions	Unforeseen supply chain disruptions or component shortages may impact availability of goods. As a result, some items may require substitution and may be subject to price and/or delivery time variances. In these instances, BIS Digital will consult with the customer about options and alternatives.

BIS-4002134 - Installation (I)

Panola County

Rep Name: Doug Hayes

Date: 08-21-2026

By signing below, I certify that I am an authorized signer for Panola County and have reviewed and approve the Scope of Work provided by BIS Digital. I understand that this Scope of Work defines the equipment requirements for the project, and certify this document accurately captures the needs of my organization. I also acknowledge that any changes to the Scope of Work must be approved in writing by all parties involved.

Client Name _____ Signature _____ Date _____

Installation (I) Description / Notes:

1. Project Overview

BIS Digital will provide the labor, equipment, programming, configuration, integration, testing, and commissioning required to upgrade the existing audiovisual distribution and room-control system serving the Panola County Court at Law.

The project includes replacement of the existing Atlona-based video distribution and control components and replacement of the existing document reader/document camera.

2. Scope of Work

BIS Digital will perform the following:

Remove or disconnect the existing Atlona encoders/transmitters, decoders/receivers, and associated room-control components being replaced under this project.
Install new BIS-EXTRN- Transmitters at the required source locations.
Install new BIS-EXTRN- Receivers at the required destination/display locations.
Integrate the new transmitter and receiver equipment with the courtroom's existing audiovisual infrastructure where applicable.
Replace and configure the existing Atlona room-control functionality with the new control solution specified for the project.
Program and configure the system to provide the required courtroom source selection, display routing, and room-control functions.
3. Document Camera Replacement

BIS Digital will remove or disconnect the existing courtroom document reader/document camera and replace it with a new:

BIS-DDC-GEN6 Digital Document Camera

The new document camera provides:

HDMI, USB, and LAN connectivity.
Up to 64x zoom.
Articulating neck for flexible document and evidence positioning.
Digital presentation of documents and physical evidence through the courtroom AV system.

BIS Digital will integrate the new document camera into the courtroom AV system and configure it as an available presentation source.

4. Existing Equipment and Infrastructure

Existing cabling, displays, racks, audio equipment, and other infrastructure not specifically identified for replacement will remain in place and will be reused where technically compatible and serviceable.

Any existing equipment, cabling, infrastructure, or conditions discovered during installation that prevent proper integration or operation and are outside the defined scope of this project will be documented and presented to Panola County before additional work is performed.

Will any BIS Digital provided equipment need to match existing equipment?

No – All BIS Digital provided equipment can be standalone and does not need to match any existing equipment.

System:

Courtroom

Multiple Rooms?

No -- This scope does NOT consider multiple rooms.

Applicable Room Name(s):

Courtroom

Will BIS Digital provide ongoing support?

N/A

System Training Required?

No – This scope does NOT require system training.

Is the client planning to record with DCR?

No – DCR recording is not required in this system.

Will the system be installed as part of a construction or renovation project?

No – System will be installed with Existing Infrastructure.

Is there a Network Approval Process?

Unknown

Will an IT Administrator or someone with knowledge of the network be available throughout the project?

N/A – Network infrastructure is not needed for the scope of this system.

Is there any conduit available?

N/A – Conduit not needed for this scope.

Is there access above the ceiling?

N/A – Ceiling access is not needed.

Is there any ceiling height on-site greater than 14 feet?

N/A – BIS Digital does not need to access the ceiling.

Is there known asbestos?

N/A – The presence of asbestos does not impact the scope of this system.

Will cables be run in-wall?

N/A – Cables will not be ran in-wall for this scope.

Will cables be run on floor with coverings?

N/A – Cables will not be ran across the floor for this scope.

Will equipment be mounted on walls, ceilings, or floors as needed?

Yes – Existing infrastructure will support mounted equipment.

Did the client confirm that installation structures will support installed equipment as applicable?

Yes – Client confirmed structure WILL support installed devices.

Is there a loading dock?

N/A – Loading dock not needed for this scope.

Is there adequate, lockable storage available to store ALL equipment needed for the installation?

N/A – Lockable storage not needed for this scope.

BIS-4002135 - Installation (I)

Panola County

Rep Name: Doug Hayes

Date: 08-21-2026

By signing below, I certify that I am an authorized signer for Panola County and have reviewed and approve the Scope of Work provided by BIS Digital. I understand that this Scope of Work defines the equipment requirements for the project, and certify this document accurately captures the needs of my organization. I also acknowledge that any changes to the Scope of Work must be approved in writing by all parties involved.

Client Name _____ Signature _____ Date _____

Installation (I) Description / Notes:

1. PROJECT OVERVIEW

BIS Digital will provide the equipment, labor, programming, configuration, integration, testing, and commissioning required to upgrade the existing audiovisual system within the Panola County District Court.

The project will replace the existing Atlona video distribution and room-control components with updated Extron-based equipment, replace the existing document reader with a new digital document camera, and replace the existing CYNAP presentation system with a new CYNAP Pro system.

The CYNAP upgrade will bring the District Court to the same presentation-system level and functionality as the other courtroom, providing greater consistency in operation, presentation capabilities, and support.

2. ATLONA VIDEO DISTRIBUTION REPLACEMENT

BIS Digital will remove or disconnect the existing Atlona encoders/transmitters and decoders/receivers being replaced under this project.

The existing Atlona video transport equipment will be replaced with:

BIS-EXTRN-DTP-HDMI-4K-330-TX
4K/60 HDMI DTP Transmitter — 330 ft.

BIS-EXTRN-DTP-HDMI-4K-330-RX
4K/60 HDMI DTP Receiver — 330 ft.

BIS Digital will install the new transmitters and receivers at the required source and destination locations and integrate them with the existing courtroom audiovisual system.

The new DTP equipment will support 4K/60 HDMI video transmission over the existing compatible infrastructure for distances of up to 330 feet.

3. COURTROOM CONTROL SYSTEM

BIS Digital will remove or disconnect the existing Atlona room-control components designated for replacement.

The replacement control solution will be installed, programmed, and configured to provide the required courtroom audiovisual control functions.

BIS Digital will integrate the new control system with the courtroom AV equipment and configure the required functions, including applicable:

Source selection
Video routing
Display control
Presentation control
System operating functions

Programming will be configured to provide straightforward courtroom operation consistent with the existing required workflow.

4. DOCUMENT CAMERA REPLACEMENT

BIS Digital will remove or disconnect the existing courtroom document reader/document camera and replace it with:

System:

Courtroom

Multiple Rooms?

No – This scope does NOT consider multiple rooms.

Applicable Room Name(s):

Courtroom

Will BIS Digital provide ongoing support?

N/A

BIS-DDC-GEN6
Digital Document Camera — HDMI, USB & LAN | 64x Zoom | Articulating Neck

The new digital document camera will provide the Court with a modern presentation source for displaying documents and physical evidence through the courtroom audiovisual system.

BIS Digital will connect and integrate the document camera into the upgraded AV system and configure it as an available courtroom presentation source.

5. CYNAP PRESENTATION SYSTEM REPLACEMENT

BIS Digital will remove or disconnect the existing CYNAP presentation system and replace it with:

BIS-CYNAP-PRO-A
Annotation Presentation System with Wireless Link and Microsoft 365 Office License — Pro | HDMI Only

The new CYNAP Pro system will provide updated courtroom presentation and annotation capabilities, including:

Wired HDMI presentation
Wireless presentation capability
On-screen annotation
Microsoft 365 Office integration
Integration with the upgraded courtroom AV distribution and control system
Presentation routing to the appropriate courtroom displays

The CYNAP Pro upgrade will bring the District Court presentation system to the same operational level as the other courtroom, providing a more consistent user experience and simplifying ongoing system support.

Will any BIS Digital provided equipment need to match existing equipment?

No – All BIS Digital provided equipment can be standalone and does not need to match any existing equipment.

System Training Required?

No – This scope does NOT require system training.

Is the client planning to record with DCR?

No – DCR recording is not required in this system.

Will the system be installed as part of a construction or renovation project?

No – System will be installed with Existing Infrastructure.

Is there a Network Approval Process?

Unknown

Will an IT Administrator or someone with knowledge of the network be available throughout the project?

N/A – Network infrastructure is not needed for the scope of this system.

Is there any conduit available?
N/A – Conduit not needed for this scope.

Is there access above the ceiling?
N/A – Ceiling access is not needed.

Is there any ceiling height on-site greater than 14 feet?
N/A – BIS Digital does not need to access the ceiling.

Is there known asbestos?
No – Client confirms installation site is free of asbestos.

Will cables be run in-wall?
N/A – Cables will not be ran in-wall for this scope.

Will cables be run on floor with coverings?
N/A – Cables will not be ran across the floor for this scope.

Will equipment be mounted on walls, ceilings, or floors as needed?
Yes – Existing infrastructure will support mounted equipment.

Did the client confirm that installation structures will support installed equipment as applicable?
Yes – Client confirmed structure WILL support installed devices.

Is there a loading dock?
N/A – Loading dock not needed for this scope.

Is there adequate, lockable storage available to store ALL equipment needed for the installation?
N/A – Lockable storage not needed for this scope.
